“Quote

The proponent has prayed for exemption of public hearing for the modernization & expansion project. The reason furnished for getting such expansion is “no increase in pollution load” vide their letter of 26/06/2015, which is technically incorrect and unconvincing. Therefore, the prayer for exempting the public hearing is rejected out of consideration by the SEIAA. A letter is to be issued to the proponent for informing this decision of SEIAA.

Unquote”

PP vide his letter dated 8th August, 2015 once again requested SEIAA for waiver of public hearing. SEIAA in its meeting held on 22nd August, 2015 decided as follows:

“Quote

SEIAA considered the application dated 26.06.2015 of the proponent and decided to provide an opportunity to Project Proponent to present the case in next meeting of SEAC.

Unquote”

SEAC went through the letter of request. SEAC is a body to assist SEIAA, so it is not possible for it to overrule any decision taken by SEIAA in July, 2015.

Further, in this case PP has got 400 tpd Sponge Iron Unit wherein it proposes to install a beneficiation plant of 96000 tpa and 1x6 t induction furnace.

SEIAA in its meeting held in July in case of Shah Sponge & Power Ltd where the capacity of sponge iron is 200 tpd and has proposed to add units as follows Phase- I CPP from 8 MW to 15 MW & 4x12 MT (480 TPD) Steel Melting Shop with CCM in and Phase-II TMT Rolling Mill- 300 TPD & CPP – 10 MW has decided to seek clarification from MoEF.

“Quote

SEIAA decides to refer this case to the MoEF & CC, Govt. of India as this project falls under Category “A”.

In order to save time SEIAA may look into the matter and decide whether to refer this case also to MoEF for clarification.
